

EFCA SPRING 2018 NEWSLETTER

Spring Clean Up Plans -- April 21, 9 am

Come join your neighbors on April 21 to clean up along the roads leading to and in our neighborhood. We will meet at the corner of Elk Forest and South Forest Roads at 9 am. Wear long sleeves, comfortable and sturdy walking shoes and bring your gloves! Trash bags will be provided. You'll be rewarded with coffee, donuts and friendly neighbors!

If it is raining, our rain date is April 22, 9 am. This will be posted on NextDoor as soon as a decision is made. Please check there for information if the weather is bad!

Little Free Library Opportunity

Thanks to the generosity of Dick Guttendorf and David Silverman for the donation of materials and carpentry skills, we have an opportunity to add a Little Free Library to our neighborhood. If you're unfamiliar, this is a worldwide network of small structures (picture a big birdhouse with shelves) where people can swap books. Add a note in the front of the ones you've read, chat with a neighbor about the books you've shared and enjoy the community spirit!

It is not permitted to install anything on public land, so we are looking for someone who would be willing to have this at the edge of their property. Please contact Sherri Mitchell at sherrimitchell@gmail.com if you are interested and to learn more about it.

2018 Mosquito Spraying

We will contract again with APM for mosquito spraying. We will not see a price increase, so we will hold our dues to \$85/property, the same as last year. We will work with APM to continue to improve their service, and will ride along with them early in the season. If you block your driveway, they will not be able to spray your property. We hope everyone will pay their fair share for this important service that improves our quality of life and health!
